Remote Screen/Print Sharing Extender
over WIFI / LAN with Android / Apple support

HDMI EXTENDER

KEY FEATURES

- **VGA or HDMI output** - Connect to any VGA or HDMI monitor or projector, output resolution up to 1080p.
- **Conference Control** - Manage up to 64 concurrently connected users as moderator and control which user is projecting.
- **4-to-1 Projection** - With the software you can easily compare 4 users side by side on one screen.
- **SidePad** - Use tablet or smartphone to remotely control any projecting Windows/Mac computer.
- **Wifi-Doc** - Project any Powerpoint, Excel, Word, PDF files or photos from your tablet or smartphone.
- **BrowserSlides** - (now also from Android/Apple) Let audience receive slides from your presentation in their browser on their own WiFi device and save them.
- **Plug-and-Show USB** - Start the software directly from a USB token. No software installation, no Admin rights needed.
- **Wireless Touchscreen** - (Win/Mac driverless UST) Connect a touchscreen or interactive whiteboard and control the projecting computer on the touchscreen. Wirelessly!
- **AirPad Controller** - Write, draw and annotate, but also control any projecting computer, using the special AirPad.
- **Annotate on the screen** - Annotate on the screen during your presentation, using your touchscreen, the AirPad or any other USB HID device.
- **Virtual whiteboard** - Project a virtual white (or black) board on the screen. Then write, draw and annotate using your touchscreen, the AirPad, or any other USB HID device.

NEW ANNOTATION FEATURE!
With the new annotation feature, users can annotate during presentations, or on a virtual white (or black) board. Write and draw using the AirPad, your touchscreen or another USB device.

Sender for Galaxy:
Use the new *Sender for Galaxy* app to mirror the screen of your Galaxy device to the HDM-SHAREPRO-IPX

The software interface:

NOW WITH HOTKEYS! Use keyboard shortcuts for easy use of all the WePresent software functionality.

The HDM-SHAREPRO-IPX is a spectacular presentation tool. It allows a group of up to 64 users, connected by WiFi or through your own network, to wirelessly present from their Windows or Mac computer, smartphone or tablet. New features on the HDM-SHAREPRO-IPX make it the perfect tool for creating a much more interactive presentation environment.
